PROFESSIONAL SUMMARY

An Architect of Breakthroughs & Sovereign Growth

I am an Award-winning Life & Mindset Coach and Keynote Speaker dedicated to helping high-achievers transition from “**Unconscious Survival**” to a state of “**Intentional Excellence**.” My expertise is built on a 20-year trajectory as a School Principal, National Master Trainer & Educator- a journey that has provided a front-row seat to the internal mechanics of peak performance and burnout.

While my background as a Counselling Psychologist provides deep behavioural insight, my coaching is relentlessly future-focused. Having addressed international forums on mindset architecture, I specialize in helping leaders, educators, and parents dismantle internal resistance to reclaim their Clarity, Courage, and Action. I facilitate the sovereign shift that turns latent potential into a lived, daily reality.
